VISION

To create the most respected education brand that provides highest quality services to the students worldwide in a sustainable & scalable way.

It is our endeavour to mould our students to be compassionate, progressive and professionally successful human beings, responsive to global culture and heritage, in an environment of sharing & caring. We believe that every child has a latent talent, which, if fostered in a conducive environment, will enhance his/her overall development.

MISSION

Our mission is to provide a vibrant forum for quality education, with a scientific temper, adaptive to the changing needs of modern times, to ensure all-round development of the child and expose him/her to a wide spectrum of co-cultural learning which is essential to make the child confident and ready to step-out in today's challenging world. The school aims to provide each student a diverse education that promotes self discipline, sense of responsibility, social and global consciousness and excellence in learning.

Philosophy

Integrating technology in education to make our students future ready.

OUR MOTTO

‘ Service before Self’.

Guidelines for Parents:-

In order to secure the best education of your child, maximum co-operation and interaction between parents, school faculty and management is necessary. This is primarily through Parent-Teachers meeting and the school diary which every child must carry to school everyday. We earnestly recommend that parents or guardians to look into their child's school diary everyday, and see to it that the lesson and home work assigned for the next day is done. The children should be encouraged to cultivate neatness in every sphere. Remarks and notices sent through the diary should be seen and counter signed regularly.

Criticism of your child's teacher or the school in his/her presence should be studiously avoided, because it causes the child to lose respect for the teacher. If you have a legitimate complaint, see the management or report the same in writing.

As the medium of instruction in the school is English, boys and girls must be encouraged to do a certain amount of regular English conversation and reading even at home.

The school insists on strict punctuality, regular school attendance, cleanliness in dress, regular study and submission of assignments. Absence from school for merely social functions is strongly discouraged. If a child has missed some work due to absence, the parents must ensure that the child covers the work he / she has missed.

Children who suffer from any kind of infectious or contagious disease will not be permitted in school till the doctor's permission is obtained.

Very Important

- 1. Any parent withdrawing his / her child for whatever reason must serve one month's written notice otherwise the child's security money will be adjusted against fees for the period of non-attendance till issue of T.C.**
2. Any child found to be indisciplined, rowdy or involved in vandalism or vulgar activities in the school bus will be debarred from using the school bus. He / she may be asked to get off the bus immediately and take a local bus home.
3. Conversation in English is mandatory for all in school campus.
4. Any damage to school property will be punishable by way of paying a fine.
5. Mobiles, Cars or motorcycles / scooters are totally banned for use by school children in the school. These will be confiscated & returned to the parents only after payment of a fine.
6. Any child whose attendance falls below 75% till Dec, for classes IX to XII will not be allowed to appear for the final exams in accordance with the CBSE rules. Any child short of this attendance will require special permission from the CBSE which will have to do obtained by the parents.
7. No child is allowed to change his / her allotted bus without a written permission from the Principal.
- 8. Narrow & low base Trousers & coloured hair are strictly prohibited in school.**
- 9. Very short kurtas,(for girls) & coloured hair are not allowed. Hair plaits are compulsory for girls.**
- 10. Any child misbehaving in the bus with any teacher, driver, conductor or other children may be debarred from using the school bus.**

FROM THE PRINCIPAL'S DESK

Every nation, society and community has to work towards promoting adolescents to acquire knowledge, values, attitudes and life skills. These help them in taking decisions, solving problems and thinking critically and creatively. Adolescence is a period of rapid development when young people acquire new capacities and are faced with new challenges everyday. They are in a stage with marked egos, With a little help in logical thinking and problem solving, their talent skills and talents can be brought to the fore.

They will be able to establish a social identity for themselves. It is a time not only for opportunity but also for vulnerability.

In order to prepare our young minds for life and work in a rapidly changing world, we at Little Scholars, discuss, guide and interact with them. This helps in building their personality and prepares them for different problems which they encounter with their friends, siblings and adults. We build their confidence and teach moral values through thoughts and actions.
